Pointed Paragraphs on Thrift Day Observance

THRIFT DAY is a day just as truly for WISE SPENDING as it is for wise saving.

In the field of spending lies Thrift's greatest opportunity. How best to spend; and when, and where; to get a fair exchange—these are truly THRIFT DAY questions.

Careful spending is necessary to Thrift, is a form of Thrift, and deserves a permanent place on the THRIFT DAY program. It is natural law that he or she who starts an extra practice of Thrift on THRIFT DAY establishes increased credit standing; becomes a better and a more prosperous citizen.

It is the thrifless buyer who soon drops out of the running—except, perhaps, the careless running up of bills. The thrifty men and women provide the really PERMANENT and profitable trade for manufacturer and merchant. It is for them that the best service is maintained.

THRIFT DAY should bring about co-operation of the most effective character between buyer and seller, and it will and does. It brings them closer together; establishes a better understanding.

Did you ever stop and observe that the thrifty citizen is found trading in the store of the thrifty merchant?

THRIFT DAY registers increased care in buying and selling.
